Wrap 200

Wrap 200

Wrap 200 is a down-to-earth design. Place a bale in the machine on the plastic film and start the wrapper using the remote control.

Once the wrapping is completed, feed a new bale using the outer gripper; pick up the wrapped bale using the innermost gripper. Place the unwrapped bale on the plastic film; cut the plastic film and start a new wrapping cycle.

The machine handles bales measuring in centimeters up to:

Length: 200

Width x Height: 80x70 80x80 80x90 120x90

Technical specifications:

Length	4,80 metres
Length w/o towing hook	4,05 metres
Width	2,5 metres
Height	2,35 metres
Weight	800 kg
Motor	Hatz 5 kW
Tyres	10.0/75 x 15,3/10
Capacity	Wrapper 30 rev/min
Plastic	750 mm x 1500 m
