

POMI

Miniwrap 60

Pressing and wrapping in one cycle.

Easy handling of bales 30 to 60 kg.

Recommendable for small-scale animal husbandry.

No storage place required - store outdoors.

The Miniwrap 60 bale wrapper is the ideal solution where efficient handling of easy-to-handle 30 to 60 kilo round bales is required.

Miniwrap 60 is attractive for small-scale husbandry where the daily feed consumption is under 30 to 60 kilos and where outdoor storage may be desirable.

Computer-controlled wrapping from tractor enables continuously variable setting of wrap layers.

Continuously variable adjustment of film pre-stretch from 40 to 60 %.

Fully automated cutting of film and loading/unloading of round bales fully synchronized with Miniwrap 60.

Hydraulic drive of winder arm and rollers ensuring precise wrapping.

Made in Denmark

MINIWRAP 60

Overall length with bale press:	3675 mm.
Overall width with bale press:	1800 mm.
Overall height with bale press:	1500 mm.
Overall weight with bale press MB 60:	840 kg.
Weight, film roll:	12 kg.

Capacity:	30 to 50 bales/hr.
Consumption of film:	36 bales/roll at 6 layers. *)
Rotation speed:	50 rpm

Requirements of tractor:

Power required:	Min. 40 HP.
Hydraulic oil connection:	1 double-acting/min. 23 litres/min.
Voltage:	12 V 8 Amp.

*) 300 mm / 1800 m / 25µ.

All components meet the 98/37/EEC Machine Directive safety requirements.
